

WeatherTech®

Child Car Seat Protector

Child Car Seat Protector

Always install your child car seat per the manufacturer's instructions. If you are unable to install the WeatherTech Child Car Seat Protector within the parameters of those instructions, contact WeatherTech to schedule a return.

Installation Instructions

Place Child Car Seat Protector on top of the vehicle seat. Front flap should fall over the front of the seat.

If desired, use scissors to trim away the side flaps – simply follow the guide lines beneath the mat.

Place your child car seat on top and strap it in as you normally would, adhering to all safety recommendations.

To clean Child Car Seat Protector, simply wipe with a soft damp cloth and/or mild detergent. For best results, use WeatherTech TechCare® FloorLiner and FloorMat Cleaner.
